PySnake

Kaj Habegger & Fabio Lenherr

Miniproject

Table of Contents

1. Introduction

We decided to do a small reinforcement learning project. As we have never done anything in terms of reinforcement learning before, we used this video as a starting point. It is a tutorial of making a Snake game and create a reinforcement learning AI model which is able to play the game after some iterations.

2. Tooling

Like the guy in the tutorial we used Pytorch and Pygame to create everything.

3. Making Of
